

SANITATION GUIDE

WHEN TO CLEAN:

EVERYDAY

- Use disinfectant spray to wipe down all hard surfaces
- Launder or clean all soft materials
- Wash hands

EVERY SHIFT

- Use disinfectant spray to wipe down all surfaces touched by employees
- Wash hands
- Clean restrooms

EVERY INTERACTION

- Use disinfectant spray to wipe down surfaces touched by customers or others
- Disinfect hands with hand sanitizer after touching objects handled by customer or others

HOW TO CLEAN:

Most surfaces can be cleaned with disinfectant sprays or wipes. If manufactured disinfectant is unavailable, hydrogen peroxide or bleach solution containing 5 tablespoons bleach per gallon of water **or** 4 teaspoons bleach per quart of water **Allow bleach solution to sit on surface for at least 1 minute*

Soft surfaces

- Clean using soap and water or cleaners appropriate for use on these surfaces.
- Launder items (if possible) according to the manufacturer's instructions. Use the warmest appropriate water setting and dry items completely.

OR

- Disinfect with an EPA-registered household disinfectant.

Electronics (including touch screens)

Use manufacturers guidance. If guidance is unavailable, use alcohol-based wipes or sprays containing at least 70% alcohol.
